

ABOUT US

Micon Mould Factory

- ∅ Micon Plastic Mould is a professional manufacturer specialized in design and development of plastic moulds located in Plastic Mould Kingdom---Huangyan, a city with convenient traffic.
- ∅ Micon Plastic Mould was established in 2008, has many years of experience on the research, design, manufacture and sale of plastic mould. With years of development, we have formed our own characteristic in mould design and manufacture.
- ∅ Our plastic moulds include thin wall mould, household mould, medical mould, chair mould, bucket mould, crate mould, battery case mould, auto parts mould, blow mold.

WHAT WE OFFER

More than 15 years experience for custom plastic mould manufacturing, We offer high quality plastic moulds as well as mould solutions.

- u 1. Rapid prototype for new products development.
- u 2. Pre-production proposal before moulds investment.
- u 3. Mould design for approval before making
- u 4. Progress report provided to keep customers updated on the moulds status.
- u 5. Videos & photos for inspection of mould running or study of mould operation before shipment.
- u 6. Spare parts and mould maintenance instruction to be provided.
- u 7. All-round technical solutions to be provided in case of any problems occurred in customers mould operation.
- u 8. Product processing.

OUR EXPERIENCE FOR VARIOUS INDUSTRIES

More than 15 years experience for custom plastic mould manufacturing, We offer high quality plastic moulds as well as mould solutions.

- | Food Package Industry
- | House Hold Industry
- | Medical Industry
- | Industrial Field
- | Home Appliance Industry
- | Automobile Industry
- | Pipe Fitting Industry
- | Horticulture Industry
- | Livestock Industry

TOOLING EQUIPMENTS

Micon Plastic Mould have purchased advanced equipment, among which there are CAD/CAE/CAM systems, CNC machines, EDM, Wire-Cutting Machine(including low-speed), High Precision Grinding Machine and Universal Milling Machine etc. The factory has great ability to manufacture large-size, precision molds weighing up to 50 tons and providing the customers with service such as developing new sets products and produces both injection molds and plastics parts by the advanced and rich experience of CAD/CAM/CAE design.

Main Equipments:

CNC machines: 15 sets

CNC Milling Machine: 5 sets

Grinder: 3 sets

EDM: 3 sets

WEDM: 2 sets

CNC Lathe: 1 sets

PROJECT MANAGEMENT

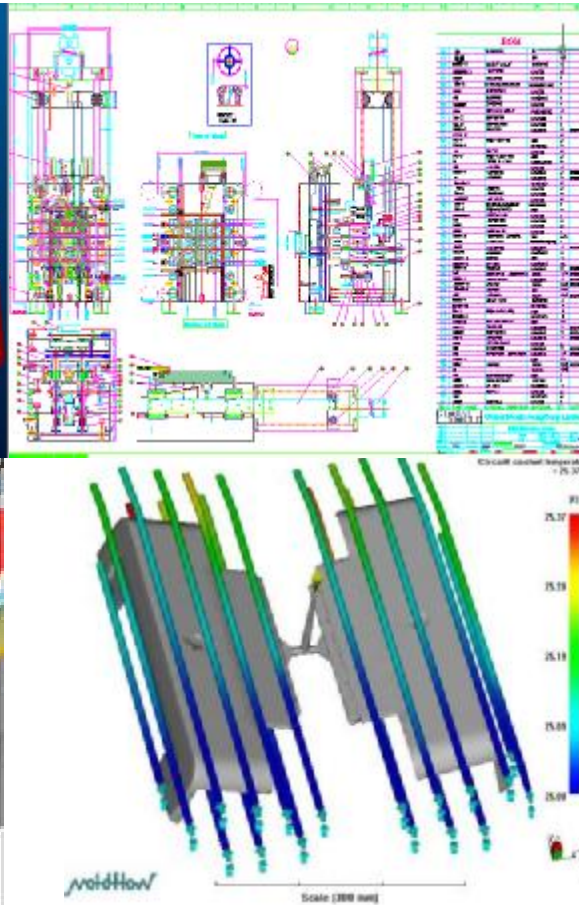

Project Management – reasonable arrangements for processing procedures, follow-up production schedule and promote on-time delivery.

Micon Mould is committed to the highest level of keeping confidential its customers' projects and products.

Our program management team are fully fluent in both English and Chinese, so communication difficulties are a thing of the past. With our excellent engineering communications and program management capabilities both in US and China. We have confidence to implement your program successfully.

DESIGN & ENGINEERING

Design & Engineering – reasonable mould structure, excellent cooling system, shorten the production cycle.

CAD:

AutoCAD , Pro-Engineer
Unigraphics, Solidworks

CAM:

Unigraphics, Mastercam

CAE:

Moldflow

MOULD LIST

- ü Thin wall mould
- ü Medical mould
- ü Household mould
- ü Bucket mould
- ü Chair mould
- ü Crate mould
- ü Auto Parts Mould
- ü Battery case mould
- ü Industrial mould
- ü Garden mould
- ü Cap mould
- ü Blow mould

Standard for Mold Component:
DME, Hasco, Rabourdin,
Progressive, Daido

MOULD STEEL

- n P20,H13,S7, 420SS,A2, Dievar , MoldMax
- n From Finkl (US)
- n From Thyssen (Germany)
- n From Assab (Sweden)
- n From LKM (China)

REQUEST FOR QUOTING

- ü We welcome very much an opportunity to quote on your projects. Why not try us for a competitive quote if you have any project in hand that we may suit? Let us demonstrate our capabilities and service to you.
- ü You can send your RFQ by email to us at: sales@miconmould.com . For large file, you can use our FTP for transferring. We can accept DWG, PDF, Pro/E, Step, Solidwork and UG files.
- ü Micon Mould sales and customer service department are looking forwards to beginning a business relationship with you. All your RFQ will be responded within 1-3 working days.

QUALITY CONTROL

1. Mould Steel Hardness, Dimension Inspection.
2. Mould Electrodes Inspection.
3. Mould Parts Dimension Inspection.
4. Mould Pre-Assembly Inspection.
5. Mould Trial Report and Samples Inspection.
6. Mould Shipment Final Inspection.
